

CrystalStones

MICRO LUXE

INSPIRED BY MOTHER NATURE

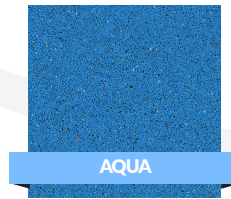

Our CrystalStones® Micro Luxe collection delivers rich, vibrant watercolor options with a premium, natural pebble pool finish. CrystalStones® Micro offers up to 8 beautifully refined finishes. Each CrystalStones® Micro Luxe blend features the smallest pebble size available, resulting in a luxuriously smooth surface with consistent texture and enhanced traction. We use only the highest quality raw materials, selected for their uniformity, smoothness, and natural luster—including naturally occurring mica flakes that add a brilliant, eye-catching sparkle to every finish. CrystalStones® Micro Luxe is easy to apply using traditional or spray techniques, creating a resilient, etch-resistant surface that's as easy to maintain as it is striking in appearance. CrystalStones® Micro Luxe represents the highest standard in durability and elegance for pebble pool finishes. CL Industries also offers an extended warranty through our Authorized Applicators.
